We strongly suggest you do the same for your plane seats! We will also compensate for the car and the stay at White River for all of us.

To climate compensate, please visit <https://klimatkompensera.se/>. There you can compensate for CO2 used for your airplane travel for this trip. Choosing the cheapest compensation the cost is approximately 1000 SEK per person.

We also strongly advice you to climate compensate for the rest of your life! It is easy and well worth it!

Rasooli Centre

Rasooli Centre is a beautiful oasis in a middle class/upper class suburb to Pretoria. All houses in the neighborhood are surrounded by high walls and security protection, even so Rasooli Centre. Comparably it is a very safe place, but wandering around outside the Rasooli Centre, especially at night, is not recommended.

We will do all our wanderings by car. Since we have rented 2 eight-seater vans, at least those of us that have signed up for the Kruger Package will have a means of getting around. There are many restaurants (halal) nearby, and several shopping centers.

The atmosphere at Rasooli Centre reminds of a garden in Andalusia. It is very contemplative and worth the visit in itself. Adjacent is Ibrahim Ravats carpet gallery. Ibrahim and his wife Majida is running the centre and lives and work beside it. The carpet gallery is one of the must visits, containing beautiful handmade carpets ranging between 1 000 SEK to 1 000 000 SEK in price.
